

ASIA
POWER
FORUM

INVITATION

The Inaugural *Asia Power Forum* Conference will take place on
20th April 2017 at the Fullerton Hotel, Singapore.

The *Asia Power Forum* has been created to serve the Asian insurance and reinsurance markets involved in the power generation sector. The forum is designed to provide a two-way information exchange between the insurance sector and the power sector including market updates, education issues etc. It is aimed at insurance market professionals, including insurers/reinsurers, brokers, and their power sector clients, as well as technical experts.

The committee members have been keen to establish this forum and have dedicated time and effort to ensure that the costs are kept as low as possible. We are delighted to be able to offer attendance costs from as low as S\$167 per person for this event.

The agenda for the full day conference will cover a variety of topics, targeted both at those who are new to the sector and seasoned professionals. There will be a mixture of presentations including presentations on insurance market conditions, technical issues in relation to power risks, industry and client challenges and pressures, claims issues and technical reviews. The agenda has been designed in close liaison with representatives from across the two sectors and, of course, there will be appropriate space for networking, thanks to a number of generous sponsors.

Delegates from all aspects of the regional insurance market and power generation sector are welcome, as well as those from other international centres with an interest in the Asian Power Sector.

Speakers include the following:

- ✓ **Disrupted Business Models: From Centralised Generation to Distributed Energy Resources**
 - Mark Leslie, AES Energy Storage, Singapore
- ✓ **Asia Power Development Over The Next Decade**
 - Allard Nooy, InfraCo Asia
- ✓ **The Changing Landscape of Delay in Start Up cover**
 - Ton Van Everdink, Munich Re, Germany
- ✓ **A Snapshot Overview of the Asia Power Market**
 - Steve Jenkins, Willis Towers Watson
- ✓ **Various other keynote speakers**
