

**Request for Expression of Interests (EOI)
Topographic Survey and Geotechnical Investigations for a Wind Power Project in
Indonesia**

July 1, 2021

Infunde Development invites expressions of interest from contractors to perform Topographic Survey and Geotechnical Investigations for a Wind Power Project in Indonesia.

Infunde is co-developing wind power project in Sumatra, together with its local partner. Infunde acts on behalf of InfraCo Asia Development Pte. Ltd. ("IAD") as its exclusive developer in various Southeast Asian markets, including Indonesia, to originate and develop infrastructure project opportunities. IAD is a donor-funded infrastructure fund, headquartered in Singapore and a member of the Private Infrastructure Development Group.

After receipt of the Expression of Interest (EOI) and execution of a non-disclosure agreement (NDA), the terms of reference and associated documents will be provided to qualified advisors.

For more information on the project background and scope of work, please fill out the online form expressing an interest in responding to the Request for Proposal #105. Interested advisors should include their Indonesia project references with the Expression of Interest. Failing to do so may result in disqualification, only qualified contractors will be contacted.

The Expression of Interest period will close on July 15, 2021.

The Request for Proposal (RfP) and Terms of Reference will be sent to shortlisted advisors after review of their qualifications and relevant project references.
