

Assistant Manager, Technical & Implementation

To support its continued growth, InfraCo Asia is actively seeking applicants for an Assistant Manager, Technical & Implementation role, based in Hanoi, Vietnam. As part of the Executive Management Team, the Assistant Manager, Technical & Implementation will help to contribute to InfraCo Asia's mission, which is to catalyse the private sector investments needed to bridge the infrastructure gap in Asia's emerging markets.

This is a unique opportunity to join a dynamic infrastructure investment and development organisation, with a solid track record of creating bankable and sustainable infrastructure projects that have a high development impact on people, planet and regional economies. The role is ideal for a highly-driven individual who is comfortable in a fast-paced environment.

About InfraCo Asia

InfraCo Asia, a company of the Private Infrastructure Development Group (PIDG), is headquartered in Singapore and invests in early-stage project development to grow the pipeline of commercially viable projects in emerging markets in South and South-East Asia.

InfraCo Asia brings bankable infrastructure projects to the market through complementary partnerships. Our investments and capabilities mobilise private sector capital and drive sustainable impact.

We are committed to international standards of governance, and our projects prioritise HSES and development impact, guided by PIDG's frameworks. We exist to catalyse positive outcomes for communities, countries, and the climate.

InfraCo Asia is currently funded by four members of PIDG – the governments of the United Kingdom, the Netherlands, Switzerland and Australia.

More information about PIDG and InfraCo Asia's model and approach can be found at www.pidg.org and www.infracoasia.com. View InfraCo Asia's brand video here: bit.ly/IAD10.

Position Summary

Working as an integral member of project teams, the **Assistant Manager, Technical & Implementation** will be based out of Hanoi, Vietnam and be responsible for supporting the Technical & Implementation team in Singapore on projects in the South East Asia countries which InfraCo Asia is mandated to operate in. This includes supporting the T&I team in providing oversight and guidance in undertaking assessment, planning, documentation, design, tendering, contracting and construction of projects in development and construction stages, as well as monitoring performance and providing support to project companies for project in operational stage where relevant.

Key responsibilities include (i) ensuring all related project risk management, procurement, planning, design, specification, tendering, contracting and contract management activities are executed on time and in accordance with international standards for quality, environmental protection, social impact, and health and safety and (ii) documentation and specification of requirements for compliance by consultants and

works contractors with the IFC Performance Standards on Environmental and Social Sustainability, including with respect to occupational health and safety.

This role reports into the Head, Technical and Implementation in Singapore and will have a matrix reporting line to the Regional Manager, South East Asia based out of Hanoi, Vietnam.

Requirements and Attributes

- Bachelor's degree in Engineering from a reputable university; Master's degree in similar or related disciplines would be advantageous;
- 6 to 8 years of relevant experience with project assessment, design and construction management and/or O&M management, relevant to infrastructure works in South East Asia, preferably in one or more of the mandate countries of InfraCo Asia in this region;
- Experience and expertise with multi-disciplinary engineering or infrastructure projects (preferably renewable energy, water supply, waste management, logistics and/or agriculture supporting infrastructure) is strongly preferred;
- Familiarity with the IFC Performance Standards on Environmental and Social Sustainability, particularly with respect to HSES management in developing countries and hands-on experience with the documentation and specification of such requirements for compliance by consultants and works contractors;
- Ability to track and analyse project budgets and company financial statements, with demonstrated experience in achieving financial goals and expense budgets;
- Highly proficient in both oral and written English. Proficiency in one or more of the regional languages in one of the countries where InfraCo Asia is mandated to work is a plus;
- Thorough knowledge of Microsoft Word, Excel, PowerPoint, SharePoint and Project;
- Strong appreciation and passion for PIDG and InfraCo Asia's mandate with a strong work ethic and desire to work in a fast-paced and demanding environment essential.

Interested applicants, please send your detailed, updated resume to careers@infracoasia.com. All applications will be treated with strictest confidence. We regret that only shortlisted applicants will be contacted.

Thank you for your interest in InfraCo Asia.
